W. L. Morgan, Jr., who resides at Pensacola, Florida, subscribes for fifty shares

of capital stock. W. H. Morgan, who resides at Pen-sacola, Florida, subscribes for one hundred twenty shares of capital stock.

E. Y. Morgan, who resides at Pensa-E. Y. Morgan, who resides at Pensa-cola, Florida, subscribes for fifty shares of capital stock.
In witness whereof each of us has

W. M. Mackey, who resides at Pensa-

percunto set his hand on this 13th day of W. L. MORGAN, W. L. MORGAN, JR., W. M. MACKEY, W. H. MORGAN, E. Y. MORGAN.

Bate of Florida, Escambia County: Before the subscriber, who is an officer duly authoribzed to take acknowledgments to deeds, personally came, W. L. Morgan, E. Y. Morgan, W. L. Morgan, Jr. and W. M. Mackey, all to me well known, and each acknowledged to me that the signature to the foregoing charter purporting to be his signa-ture was made by him for the uses and purposes in the said charter expressed. In witness whereof I have hereunto set In witness whereof I have hereunto set my hand and affixed my seal official, on this 13th day of June, 1911.

(Seal)

My Commission expires Nov. 4, 1914.

MARKET FIRM A LIFELESS ONE

weather. The western belt forecast calling for generally fair weather tonight and touserrow added to the buying power shortly after the call and new crop positions sold about 12 to 12 points net higher, while near months firmed up to a net advance of from 2 to 5 points in symmethy. sympathy.
Cotton offerings became heavier around

11:30 for December and the market dur-ing the late forenoon became less active after the early covering movement had run its course. Prices at midday were about 5 to 6 points lower on the old crop and 8 to 9 points net higher on new crop

A bearish private condition report and a rumor that latest returns to the National Ginners' Association made the condition of the crop between 89 and 90 per cent. encouraged a little local seiling and the market was barely steady during the sfternoon, although new crop positions held 5 or 6 points net higher, old crop months were relatively easy and sold off to a net loss of about 5 points. Cotton spot closed quiet; middling up-lands, 14.80; middling gulf, 15.05; sales,

New Orleans Futures. Liverpool, June 29.—Closing: Cotton spot dull, 3 points lower; American middling, fair, 6.65; good middling, 8.33; middling, 8.11; low middling, 7.91; good ordinary, 7.65; ordinary, 7.40. The sales of the day were 4000 hales, of which 300 were for speculation and export, and included 3500 American.

New Officialis Futures.

New Officialis Futures. This feature overshadowed everything else and caused buying for both accounts. Offerings were limited and at the end of the first hour of trading the more active months were 7 to 10 points up. Cable reports from Monday stating that the Indian crop was sufferings for lack of rain also helped the market.

At the highest the levels of the morning offerings became plentiful and it was the gossin of the market that long cotton.

the gossip of the market that long cotton was coming out. The forecast for continued dry weather in Texas and Oklahoma was a steadying feature, but did not increase the advance. Private esti-mates of the condition of the crop on June 25 were bearish and checked buying for the rise on the port of the ring scalpers and room traders. Late in the morning offerings from the long side increased and there was a reaction of five points on the new crop months. At noon the old crops were 3 to 9 points over vesterday's close and the new crops were

CLOSES STEADY CHICAGO GRAIN

By Associated Press.

New York, June 29.—Changes at the opening of the stock market today were confined to small fractions. There were no signs of the pressure which forced down prices yesterday and trading was dull. Most of the speculative leaders made slight advances.

Trading showed a good deal of vim for a time and there was a further advance in prices, which put many of the repre-sentative stocks a point or more above yesterday's closing figures. After this had been accomplished, the demand be-come less urgent and there was a moderto amount of profit taking which forced back the list slightly. American Smelt-ing improved 13-8 and Union Pacific, Southern Pacific, Reading, Lehigh Vailey and Delaware and Hudson 1. The Toledo, Louis and Western stocks yielded 1 to 11-2.

The tone of the stock market was distinctly stronger this morning. The heavy selling of yesterday was not resumed and the lower range of prices then established attracted a moderate amount of buying, which forced up prices general-ly. Bull traders, however, made no at-tempt to extend the movement, and the market grew dull at the higher level. Optimistic reports in the west of crop prospects and indications of a further improvement in the iron and steel situa-tion helped to improve sentiment. American Tobacco securities were unusually active and strong. The preferred stock rose 13-4 and the 4 per cent. bonds 21-4. Bonds were firm. Little stock was offered at current quo-tations and bids were reised steadily in filling orders so that prices returned to their previous best. Erie and Missouri

Pacific loomed into prominence with gains of a point each. Speculation was almost lifeless in the afternoon and fluctuations were in keeping with the volume of business.

SHIPPING TRANSACTIONS AND NOTES OF INTERTST ALONG THE BAY FRONT.

The British steamer Manx Isles, hich reached here Sunday with a full Cargo of mahogany logs, completed disharging yesterday and cleared for fobile, where she will load cargo.

American schooner Haskill, Captain Staples, entered yesterday and will load a cargo of lumber and timber. The British steamer Glenfruin completed loading a cargo of 2,100,000 feet of lumber : esterday for Buenos Ayres and will sail today.

A large force of men are employed at Commandancia wharf in discharging the cargo of the British steamer Tampican which has a full cargo of manure sat from Germany.

The Olympic's Arrival.

Marine Journal: The gigantic Olympic, which vessel arrived this week on the maiden by the control of the her maiden bip, is the answer of the White Star Line to the challenge of the great Cunard turbine steamships which have wrested and held the speed record of the north Atlantic against all comers, and the German lines are pre-paring to go a step further in the same direction—that of bulk and length. It is not a little significant that as yet the attempt has not been made to match the speed of the Lusitania and the Mauretainia or to duplicate and improve upon the turbine method of ropulsion, which are the distinguishing characters of those vessels. This is a "card" which the Cunard's rivals are content for the present to leave in the possession of that company.

It has proved a costly possession in one sense, but the prestige which accrued to the company from the achieve-ments of those magnificent ships has more than balanced the account. The other English and the German lines have determined to trust to bigness and unparalleled convenience and comfort to offset the record of these swift ships, and the results of their experiment will be watched with interest by a people whose achievements in every thing but foreign-going ships have been and are the wonder of all civilized foreign nations.

The Puritan to the Junk Pile. Worthless, except as junk, the old monitor Puritan, which was sunk in Hampton Roads last November by a high explosive test and subsequently raised, will be sold to the highest bidder if the recommendation of an examining board is adopted. The board found that the cost of repairing the vessel, even to make her serviceable for the use of the naval militia, would be excessive, and recommended that she be sold, a minimum valuation of \$12,200 being fixed.
about twenty years ago, was regarded
about twenty years ago, was regarded fense vessels in the world. She cost the government \$3,395,465. The Puriean's only active service was during the Spanish war, with the monitor fleet which operated in West Indian waters without notable result.

Fuel Oil. The rapid development of the use of oil as fuel in both railway and vessel propulsion in the last decade was propulsion in the last decade was started by the Ending of large oil-bearing territory in Texas and Call-fornia. It was in 1901 that the All-fornia in the last decade was started by the Ending of large oil-bearing territory in Texas and Call-fornia. It was in 1901 that the All-fornia in the last the All-fornia in the last the It was in 1901 that the off I fornia. wells of Beaumont, Texas, were discovered and began to yield a grade of oil particularly adapted for fuel purposes. This oil has a base of asphaltum instead of paraffine, and carries a considerable quantity of sulphur. Due to its very low flash point, however, in the crude state it requires careful handling. The Kern River territory of California yields a similar

petroleum to the Texas product. Shipping Sales. The steel twin-screw passenger steamer Frederica, owned by the Lonpany, is reported sold to Turks, through Messrs. H. E. Moss & Co., at about 12,-000 pounds. She was built and engined Messrs. J. & G. Thomson, Ltd., Glasgow, in 1890, and had new boilers

35 ft. by 15 ft. 8 in., 1,088 tons gross, carries 400 tons deadweight, has accommodations for 150 first-class and 69 second-class passengers, and steams 18 knots. Two sets of triple expansion engines, each 24 in., 37 in., 56 in., by 33-in. stroke. Messrs. James Moss & Co., Liverpool, are the purchasers of the London steamer Shahristan, recently reported
